In a collaborative learning environment, OMSNIC’s team of speakers integrates case examples with nonclinical issues commonly seen in oral surgery claims. Our four hour live seminar highlights risk management techniques that can improve patient care and lessen the risk of claims. Case examples involving implants, wrong tooth extractions, equipment issues and anesthesia complications will be included. This seminar is designed for oral and maxillofacial surgeons and residents and has no prerequisites.

Seminar Objectives
At the conclusion of the seminar, attendees will be able to:

• Identify common issues in implant cases and use them in an effort to improve patient care and prevent untoward outcomes.

• Be more aware of the issues that lead to wrong tooth extraction cases.

• Have a better understanding of the impact of proper disclosure on patient care.

• Recognize the issues associated with equipment failures and have learned methods that can be used to prevent them.

• Be familiar with the HIPAA HITECH requirements for safeguarding electronic health records.

• Understand the importance of implementing and practicing appropriate anesthesia management systems to achieve quality patient care.

Upon completion of this live seminar, attendees will earn 4 CE credits. OMSNIC policyholders receive a 5% Risk Management credit which will be applied to their next three policy periods.
Risk Management for the Oral and Maxillofacial Surgeon

Sunday June 03, 2012           8:30am - 12:30pm
Oak Brook, IL

Seminar Speakers

STEVEN M. HOLMES, DDS

Dr. Holmes is a certified Diplomate of the American Board of OMS. He was a director of OMSNIC from January, 1997, to September, 2010. From December, 2000, through December, 2010, Dr. Holmes was Chairman of the Risk Management Committee and continues to serve as a consultant. Dr. Holmes has nothing to disclose.

MICHAEL STRONCZEK, DDS, MS

Dr. Stronczek is a practicing oral and maxillofacial surgeon in Fort Wayne, Indiana. Most recently, Dr. Stronczek served a two-year term as a Director of the American Dental Society of Anesthesia. He was a member of the OMSNIC Claims Committee for six years. Dr. Stronczek is currently a Director of OMSNIC and the Chair of the Risk Management Committee.

ADA CERP® Continuing Education Recognition Program

OMS National Insurance Company, RRG (OMSNIC) is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. OMSNIC designates the activity, Risk Management for the Oral and Maxillofacial Surgeon, for four (4) continuing education credits.
